COPPER STRAIGHTENER & REROUNDER (CSR)

4 to 5 times faster unrolling and straightening a 40' coil of soft copper.

Re-rounds 1-1/2" and 2" oval tubing anywhere along its length, so cutter tracks and fittings seal properly. Especially useful on wet tubing or in tight quarters-provides a solid grip when straightening or fitting up. Safe, firm grip when using hammer flare tools.

Full utility is best appreciated by using these tools. Tools pay for themselves in labor savings in the first few jobs.

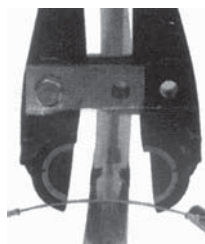

Also available for 3/4" and 1" copper tubing.

CSR2

CSR3/4 and CSR1 are useful for straightening when tubing is wet or when working in tight quarters.

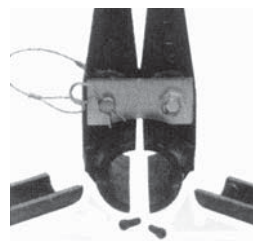

<u>Model Number</u>	<u>Trumbull Item No.</u>	<u>Fits K Copper</u>
CSR-3/4"	368-9028	3/4"
CSR-1"	368-9029	1"
CSR-2"	368-9030	1-1/2" & 2"

Quick-release jaws open for easy placement along run.

One shot rounding

CSR2 includes inserts for 1-1/2" K copper
