

TRUMBULL SOIL PROBE RODS

Used in locating buried lines

Offered in both insulated and non-insulated styles.

Insulated Probe Rod features non-conducting, molded rubber handle and shield on upper section of shaft. Molded rubber coverings have been laboratory tested to assure protection against electrical shock from accidental contact with buried **SECONDARY** electrical lines.

Note: The insulation will **NOT** provide protection against contact with primary voltages. Please consult your local utility for locations of underground primary lines. Handle is 1-3/16" diameter x 9-1/2" long.

Trumbull Soil Probe Rods are stocked in two lengths:

Overall Length	Insulated Type		Welded Type	
	Trumbull Item No.	Weight	Trumbull Item No.	Weight
4'	367-9080	4.00 lbs.	367-9081	4.00 lbs.
5'	367-9090	4.25 lbs.	367-9091	4.25 lbs.
Tip	367-9095	----	----	----

Consult your local utility for locations of underground primary lines.
