## DIAMETER TAPE

1/4" x 10'

Most competitive models of diameter tapes can measure up to 20" or 24" pipe.  
 Trumbull's tape will measure diameters up to and including 36" ductile iron pipe.

*Available with Custom Logos!*

| Trumbull Item No. | Measurement Scales Type |
|-------------------|-------------------------|
| 217-6653          | Inch                    |
| 217-6656          | Metric                  |

First 12 inches of front measures to 1/32nds.  
 Balance of front measures to 1/16ths.

Diameter on back to 100ths of inches.

Also available in a metric version with a 3 meter metric measuring scale on one side of the tape and a metric pipe diameter scale on the opposite side measuring to 955mm.

## DIAMETER TAPE

A necessity for any water utility or waterline contractor! Know your pipe diameters in order to size your clamps, couplings and tapping sleeves accurately! Gift Boxed.

Automatically converts circumference of a pipe to its diameter. Yellow tape with black markings.

Spring action returns blade to case.

Boxed Weight: 2-1/2 oz.

Don't buy a tape that may not be long enough to do the job.

Trumbull 10 foot tapes can measure the outside diameter of 36" ductile pipe (38.30" O.D.)
