METER BOX COVERS

Trumbull Meter Box Covers are available in two styles: single lid and double lid. Both styles feature worm gear and standard 27/32" brass pentagon bolt.

Double Lid Meter Box Covers provide both physical and frost protection for underground meters. The insulating air space captured in the Ductile Iron base casting, between the Ductile Iron lid assembly and the plastic frost liner, helps keep the ground heat inside the meter chamber to reduce the chance of freezing. The internal plastic frost liner is molded with a central hub to permit easy removal. The double lid style uses 11-1/2" solid lids; lids drilled for touch-read meters are available.

Trumbull Meter Box Covers are now available in two sizes with 15" lid assemblies. Available in 18x15 and 20x15 sizes and stocked with lids drilled for touch-read meters or solid; both models use the same lid assembly.

<u>Trumbull Item No.</u>	<u>Description</u>	<u>Lid Size</u>	<u>Tile Size</u>	<u>Weight</u>
Double Lid Style, 11-1/2" Lid:				
367-5463	Model T4-21 Meter Box Cover Assembly	11-1/2	21	75#
