VALVE POSITION INDICATORS

ELIMINATE BROKEN VALVE STEMS DUE TO OVER-OPENING OR OVER-CLOSING

FOR BURIED SERVICE, OR FOR INSTALLATION IN FLOORS, WITH WALL BRACKETS, OR FLOORSTANDS

3850 Hendricks Road, Youngstown, Ohio 44515

US Patent No.'s 8,550,115 / 9,347,583 / 10,066,760

Valve Position Indicators

For Buried Service with 1-1/4" Square Extension Stems

- Eliminates broken valve stems caused by over-opening or over-closing
- Field-adjustable for any number of turns within the range of each model

- Double O-ring seals keep out water and dirt
- Third-party tested to over 1 million revolutions
- Provided with stainless steel hardware
- Also available for use above ground in the floor or with Wall Brackets (see pages 8 - 11)

OPEN

2. Model required (available in 57, 275 or 870 turns)

Valve Position Indicators

For Buried Service with Telescopic Extension Stems

DRILLING OR NNING REQUIRED

POSITION INDICATOR

- Eliminates broken valve stems caused by over-opening or over-closing
- Field-adjustable for any number of turns within the range of each model
- Constructed of heavy-duty, non-corrosive DuPont™ Delrin® polymer, providing high-

impact resistance even in cold climates

- Third-party tested to over 1 million revolutions
- Provided with stainless steel hardware
- Also available for use above ground in the floor or with Wall Brackets (see pages 8 - 11)
- Telescopic stem eliminates the need for precise field measurement of extension stems and provides for ground movement caused by freezing and thawing

7. Specify direction of open (open left or open right)

Feature Comparison of "Turn Count" Scales

TRUMBULL

Permanently molded markings. Large numerals and characters make it easy to see the valve's position.

Other Design "A"

Adhesive labels can peal off in high temperature or humidity.

Other Design "B"

Precise position of valve is difficult to determine.

Debris Shield

TRUMBULL

DEBRIS SHIELD keeps dirt off of Position Indicator, as the composite image shows above. Note how white color illuminates inside valve box!

Other Design "A"

Other Design "B"

The two simulations above show how dirt and debris can accumulate on the Position Indicator WITHOUT a Debris Shield.

Cyclic Environmental Testing Independent Testing

- Coarse Arizona sand mixed with water and aerated for 4 hours.
- Mixture heated to 110°F for 4 days.
- Above process repeated several times, attempting to pass debris through the o-ring seals.
- Disassembly conducted after 302,500 revolutions.

RESULTS: Only minimal particles of sand were present, with no effect on function! Double O-ring seals keep out water and debris (see image on the next page).

Life Cycle Testing Independent Testing

RESULTS:

After 1,026,000 revolutions, no sign of wear on any component.

RESULTS:

After 1,204,500 revolutions, no sign of wear on any component.

RESULTS:

After 1,131,000 revolutions, no sign of wear on any component.

Submersion Testing

In-House Testing

TRUMBULL POSITION INDICATOR

Other Design

After 24 Hours

After 24 Hours

Disassembly

Disassembly

RESULTS:

- No corrosion, due to POLYMER CONSTRUCTION
- No debris, due to DOUBLE 0-RING SEALS
- Only a few drops of water were present inside the assembly

RESULTS:

- Aluminum housing showed oxidation
- Iron castings showed corrosion
- No debris
- Several ounces of water were present inside the assembly (potential freezing hazard)

Sealed Floor Boxes

Product that Can be Used together with Valve Position Indicators

Ideal to prevent fluids from penetrating the floor slab from either direction. Available in cast stainless steel and carbon steel.

BUNA-N O-RING

Seals Floor Box at top of floor; furnished standard, other materials available upon request

OVERALL HEIGHT 11-1/8" WITH LID

Optional AccessoriesAvailable as special order

PACKING GLAND

with stainless steel follower seals bottom of Floor Box

BRASS BUSHING

aligns extension stem when bottom seal is not utilized

POSITION INDICATOR

can be used with either brass bushing or packing gland, see Pages F-7 and F-8 for Trumbull Valve Position Indicator installation in floors.
