

# CHAIN-UP DEVICE

## MODEL - TMCUD

### DESCRIPTION:

Chainwheels are installed to provide access to overhead valves and they frequently result in chain hanging into the pathway of workers, creating a kind of obstacle course or even a safety hazard.

The "Chain-Up" Device stores chain overhead and safely above the pathway. Simply hook the clevis pin into a chain link at the desired overhead height and insert the chain into the device. Pull on the handle to release the chain for operation. After use, the chain is placed back into the "Chain-Up" and hooked at the desired height. Molded in Safety Orange color from high-strength thermoplastic polymer.

- Overall Length 11-3/4" and Weight 0.55 lbs.

"CHAIN-UP" Device stores the chain above pathway.
