

HYDRANT MARKERS HELP FIND HYDRANTS WHEN THEY ARE NEEDED MOST.

TOP MOUNT MARKERS ATTACH TO THE HYDRANT VIA THE HYDRANT CAP BOLTS.

SIDE MOUNT MARKERS ATTACH TO THE HYDRANT HOSE NOZZLE.

Fire Hydrant Markers

Allow for Easy Locating in Difficult-to-Find Environments

Our Hydrant Markers are made of fiberglass shafts with reflective red and white stripes. Shafts are 3/8" in diameter and available in 4, 5 or 6 foot lengths. Spring mounts allow for greater flexibility in wind, rain or snow, and the top mount model includes a flat mounting bracket.

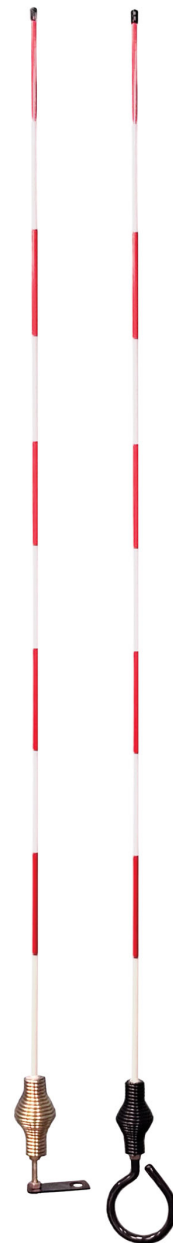

- Easy to install.
- Top mount model installs easily onto the hydrant's cap bolts.
- Side mount model attaches on the hose nozzle.
- Both models are corrosion and UV resistant.
- Models are shipped fully assembled.

Top Mount Hydrant Markers

Item No	Length	Weight
125-250-00040	4'	1.70 lbs.
125-250-00050	5'	1.85 lbs.
