

"Chain-Up" Device

Eliminates a Potential Safety Hazard Presented by Overhead Chains

Chainwheels are installed to provide access to overhead valves and they frequently result in chain hanging into the pathway of workers, creating a kind of obstacle course or even a safety hazard.

Our "Chain-Up" Device stores chain overhead and safely above the pathway. Simply hook the clevis pin into a chain link at the desired overhead height and insert the chain into the device. Pull on the handle to release the chain for operation. After use, the chain is placed back into the "Chain-Up" and hooked at the desired height. Molded in Safety Orange color from high-strength thermoplastic polymer.

**CHAIN FROM OVERHEAD
CHAINWHEEL SHOWN IN PATHWAY.**

**"CHAIN-UP" DEVICE STORES
THE CHAIN ABOVE PATHWAY.**

WATER DRAINS
prevent water from
building up inside

Item No	Overall Length	Weight
367-1890	11-3/4"	0.55 lbs.

i For additional Chainwheel safety, always use Trumbull's Chainwheel Safety Restraint System (see page G-65 & G-66 for more information).
