## **DUCTILE IRON INDICATING FLOORSTAND, 36"**

### Suggested Specifications

Floorstands shall be of the non-rising stem, indicating type, and designed for counterclockwise operation. The distance from the base flange to the handwheel shall be 36".

The pedestal shall be cast of ductile iron grade 65-45-12. The pedestal shall have a vertical indicating slot which is sealed by a clear Lexan plate. The word "OPEN" shall be cast in the pedestal at the top of the indicating slot. A "CLOSED" tag will be field mounted to the pedestal, to indicate the closed position of the valve. A bronze indicator shall travel on a carbon steel threaded stem to indicate the position of the valve. The stem shall be Xylan coated to prevent corrosion.

Where a floor is not directly over the valve and extension stem, the floorstands shall be supported by a ductile iron wall bracket mounted to the side wall. Wall brackets shall contain a carbon steel plate designed to support the floorstand.

The floorstand shall be operated by a 14" diameter cast iron handwheel.

Floorstands shall be as manufactured by Trumbull Manufacturing, Youngstown, Ohio.
