

# 6 INCH SEALED FLOOR BOX

**CARBON STEEL - MODEL TMCSFB6**  
**STAINLESS STEEL - MODEL TMSSFB6**

## DESCRIPTION:

Sealed Floor Boxes are ideal to prevent fluids or vapors from penetrating the floor slab from either direction.

Top side is sealed by a Buna-N O-ring, and bottom side can be sealed by use of optional packing gland.

Overall length is 6", but the underside is tapped to accept 2-1/2" NPT steel pipe nipples.

When it's necessary to convert a Floor Box to thicker floors, use a 2-1/2" pipe nipple, 1/2" longer than the increase required, as the threads on the underside of the Floor Box are 1/2" deep.

The lid is secured by socket head cap screws.
